EXPERIENCE

Maine Health Field Service IT Internship

June 5 - August 11, 2023

- Delivered technical support in a fast-paced healthcare setting, resolving software, hardware, and network issues.
- Diagnosed and documented IT incidents using internal systems to minimize operational disruptions.
- Assisted with the installation, setup, and maintenance of workstations, servers, and peripherals.
- Improved end-user communication skills through direct support and ticket resolution.
- Supported inventory tracking and collaborated with IT professionals to improve process efficiency.

EDUCATION

Massabesic High School Diploma

2017 - 2021

University of Southern Maine

September 2021 To May 2025

A bachelor's degree in computer science

My Projects

<https://github.com/joshthyng777>

My projects can be found on GitHub, I am actively adding New projects and learning new skills. (Linked Above)

My Kaggle Account: <https://www.kaggle.com/joshthyng>

SKILLS

Python (Pandas, Numpy, Matplotlib, Seaborn, OpenCV, etc)

Java, SQL, Bash

Git & GitHub, Jupyter Notebooks

Technologies / Concepts

Data Analysis & Visualization

Computer Vision & Deep Learning (CNNs, Image Preprocessing)

Networking, Linux / Unix Systems

Basic knowledge of VMWare, Virtual Machines, and system architecture

Understanding of Agile practices and ticketing systems (e.g., JIRA)

Google Sheets / Microsoft Excel (Advanced Formulas & Functions)

Certificates

Codecademy: Data Scientist Analytics Course (SQL, Python, Statistics, Tableau, Excel)

Codecademy: Learn SQL

Codecademy: Intermediate Python 3

Soft Skills

Collaboration, Problem-solving skills, Adaptability, Attention to Detail
